

This service is not even available in my area yet. I would like it to be, I don't like waiting for traffic info, My drive to work takes me only 15 minutes. On regular radio that would be 8 to 12 minutes of commercials. I really don't have time for that. I pay for XM radio and I think we should have this service. I don't mind paying extra for a service like XM radio because it lets me choose how I want to listen to radio. I'm not a slave to the local stations. Aren't there more pressing issues in our country that people can focus on. LEAVE MY XM RADIO ALONE!
